PRO FOOTBALL HALL OF FAME

ACTIVITY GUIDE 2022-2023

SOCIAL STUDIES TABLE OF CONTENTS

LESSON	NATIONAL STANDARDS	PAGES
All Across America	Geography: 1 & 6	SS 1-3
Dealing with the Elements Is No Easy Feat for Football	Geography: 14	SS 4
From Humble Beginnings: The Story of Pro Football	US History: Era 7, 8, 9 & 10	SS 5
Studying Football States	Geography: 1 & 4	SS 6-9
The Game Is On! Who Will Win, the AFC or the NFC?	Geography: 1	SS 10-13
The Movement of the Population to the South and West	Geography: 9	SS 14-15
The Origins of the Football Stadium	World History Eras: 1	SS 16
The Road to Excitement: Destination Canton	Geography: 1	SS 17
Tickets, Anyone? The Law of Supply and Demand in the NFL	Economics: 7 & 8	SS 18-19
Miscellaneous Activities		SS 20
NFL Cities Word Search		SS 21
NFL Team Nickname Match		SS 22
Answer Key		SS 23-24

SOCIAL STUDIES

All Across America

Goals/Objectives:

Students will:

- Recognize the states by their shape and location on a blank (continental) map of the USA.
- Learn more background information about an area of the USA through research.

National Standards: National Geography Standards – 1: How to use maps; 6: How culture and experience influence people’s perceptions of places and regions

Methods/Procedures:

- Students will use a blank map of the USA to plot where existing NFL teams are located.
- Students will then determine where a team is needed and present arguments as to why this region should have a team.
- Students will research that specific area to learn more information before choosing a name, mascot, etc. Research may be done through using an atlas, the internet, AAA Travel Guides, etc.

Materials:

- Blank map of the USA
- List of all existing NFL teams

Assessment:

- Students will successfully fill in an area that is void of an NFL team and explain why this area was chosen.
- Student’s team and mascot will reflect the information gathered for that area through a presentation to emphasize the rationale for their choices.

SOCIAL STUDIES
All Across America

AFC

Baltimore Ravens
Baltimore, Maryland

Buffalo Bills
Orchard Park, New York

Cincinnati Bengals
Cincinnati, Ohio

Cleveland Browns
Cleveland, Ohio

Denver Broncos
Denver, Colorado

Houston Texans
Houston, Texas

Indianapolis Colts
Indianapolis, Indiana

Jacksonville Jaguars
Jacksonville, Florida

Kansas City Chiefs
Kansas City, Missouri

Las Vegas Raiders
Las Vegas, Nevada

Los Angeles Chargers
Los Angeles, California

Miami Dolphins
Miami Gardens, Florida

New England Patriots
Foxborough, Massachusetts

New York, Jets
East Rutherford, New Jersey

Pittsburgh Steelers
Pittsburgh, Pennsylvania

Tennessee Titans
Nashville, Tennessee

NFC

Arizona Cardinals
Glendale, Arizona

Atlanta Falcons
Atlanta, Georgia

Carolina Panthers
Charlotte, North Carolina

Chicago Bears
Chicago, Illinois

Dallas Cowboys
Arlington, Texas

Detroit Lions
Detroit, Michigan

Green Bay Packers
Green Bay, Wisconsin

Los Angeles Rams
Los Angeles, California

Minnesota Vikings
Minneapolis, Minnesota

New Orleans Saints
New Orleans, Louisiana

New York Giants
East Rutherford, New Jersey

Philadelphia Eagles
Philadelphia, Pennsylvania

San Francisco 49ers
Santa Clara, California

Seattle Seahawks
Seattle, Washington

Tampa Bay Buccaneers
Tampa, Florida

Washington Commanders
Landover, Maryland

Dealing with the Elements Is No Easy Feat for Football

Goals/Objectives:

Students will:

- Describe human adaptations to different physical environments.
- Describe how the activity of watching football games is influenced by environmental factors (climate, landforms) in different places and regions.
- Describe how humans change the environment to fit their needs to enable a NFL football team to play in their city.

National Standards: National Geography Standards – 14: How human actions modify the physical environment

Methods/Procedures:

- Begin by wearing sunglasses and a sun hat and ask the students why someone would wear those. Then put on a raincoat and open an umbrella and ask why someone would need those items.
- Discuss the idea of human environmental interaction in the examples above. Explain that people learn to adapt to the conditions of their environment. Explain that it also means learning to use and change the surrounding environment. Have students locate pictures from magazines or the internet of examples of human environmental interaction.
- Ask students how they would adapt to weather conditions if they were going on a vacation to a snowy, cold climate. What would they take with them to be comfortable? What would need to be done so the family could get through the streets by taxi or car to get to their location (city or town uses snow plows, salt, or cinders)? Explain that this is changing what the environment has presented so humans can continue to carry on their lives.
- Have students list several examples of how fans at a football game adapt to their weather conditions. What do they wear? What might they carry with them to be assured of comfort? See pictures and videos from the website; www.ProFootballHOF.com
- Have students examine the football stadium to determine how it provides comfort from the environment. Is it covered? Does it have any areas which are covered? Why?
- Was the stadium built in a certain way due to landforms in the area?
- How do the football players adapt to cold weather? What do they do if it is very hot to stay hydrated?
- What was in the location before the stadium was built? What did the architects and builders need to do in order to use the land to build the stadium (this requires a look at the history of the site)?

Materials:

- Pictures of people from magazines
- Scissors, Coloring Materials, Paper
- Access to the internet
- Archival history of the stadium nearest the students' city or town
-

Assessment:

- Students should be able to find or draw pictures of fans at a football game adapting to their environment, showing several examples to convey their understanding of human environmental interaction (HEI).
- Students can do a study of the construction of the stadium and see how builders and architects had to change what existed at the site in order to build the stadium. The students can show how this is an example of HEI.

From Humble Beginnings: The Story of Pro Football

Goals/Objectives:

Students will:

- Understand the beginnings of football as we know it today.

National Standards: U.S. History: Era 7 - The Emergence of Modern America (1890-1930); Era 8 - The Great Depression and World War II (1929-1945); Era 9 - Postwar United States (1945 to early 1970's); Era 10 - Contemporary United States (1968 to the Present)

Methods/Procedures:

- Students will visit the Pro Football Hall of Fame's website at ProFootballHOF.com. A tour through the website teaches students how and where the game began, who were the early superstars, and who helped the game become what it is today.
- Students will take notes.
- If the class can take a field trip to the Hall of Fame, students should take notes as they tour.
- Students will complete a one page report on the beginning of pro football from the information gathered online and from their field trip.
- Students will then present this information (first game, first paid player, early equipment) to the class.

Materials:

- Access to Internet
- Paper and Pen/Pencil for taking notes

Assessment:

- After writing a one page report, students will be able to share verbally with others their experience at the Hall of Fame explaining how the game began.

Studying Football States

Goals/Objectives:

Students will:

- Improve geography skills using football team facts and locations.
- Use map skills with football facts.
- Explore data from NFL teams.

National Standards: National Geography Standards – 1: How to use maps; 4: The physical and human characteristics of places

Methods/Procedures:

- Have students complete the social studies worksheets provided on the following pages by using resources such as maps, the internet, and online resources such as ProFootballHOF.com.
- Make adaptations as necessary.
- Answers are located in the back of the publication.
- Geography Search
- Team Travel
- Social Studies Activities

Materials:

- Geography Search worksheet
- Team Travel worksheet
- Maps, atlas, online resources
- Writing utensils and paper or poster board
- Pushpins and string
- Access to a computer, NFL Team Websites

Assessment:

- Students will be assessed on accuracy.

Geography Search

Directions: Use the Internet to complete the following questions about National Football League cities and states.

1. This state, which borders eight other states, is now home to an NFL team formerly located in Texas. Name the state and the team.
2. The Everglades are a large wetland area nearest which NFL city?
3. This NFL team was first located in Cleveland, moved to Los Angeles, then St. Louis. Now they are back in Los Angeles. They also were the first team to have a logo on their helmet. What is the team?
4. This "electrifying" team was only the second team to play in the Hall of Fame Game and the Super Bowl in the same season. They currently share a California city with another NFL franchise.
5. Name the NFL city located on Elliott Bay in Puget Sound.
6. This city in northern Florida is home to a team whose mascot has the same name as a luxury car. What city is it?
7. Which New England state do the New England Patriots call home?
8. This city has hosted ten Super Bowls including Super Bowl XLVII. Mardi Gras is also held here every year. Name the city and state.
9. In which state do the Carolina Panthers play their home games?
10. Name the NFL city nearest the Continental Divide.
11. The Pittsburgh Steelers stadium used to be Three Rivers Stadium. What three rivers join together in Pittsburgh?
12. This NFL team gained its unusual name for the meat packing industry so important to the area. This team won Super Bowls I, II, XXXI & XLV. Name the team.
13. Which state has an NFL team closest to the equator?
14. Name the eight states with NFL teams that border the Great Lakes.
 - 1.
 - 2.
 - 3.
 - 4.
 - 5.
 - 6.
 - 7.
 - 8.

Geography Search

15. Which NFL city is associated with the development of the automobile?
16. The California Gold Rush gave this NFL team its name. Name the team.
17. What eastern city is the only one with two NFL teams?
18. What team represents our nation's capital?
19. Name two landlocked NFL cities.
 - 1.
 - 2.
20. Name six states that do not have an NFL team.
 - 1.
 - 2.
 - 3.
 - 4.
 - 5.
 - 6.
21. Which NFL city is closest to Niagara Falls?
22. Name the three states with NFL teams that border the Gulf of Mexico.
 - 1.
 - 2.
 - 3.
23. This NFL team was named after the fighting ancestors of many Scandinavian settlers of the area. Name the team.

Team Travel

Directions: Using a blank United States map (page SS2) and a 2022 NFL schedule, complete the following activities.

1. Label each individual state.
2. Label each NFL team in its correct city. On a separate piece of paper, list those states that do not have a NFL team.
3. Secure the map to a piece of cardboard to push pins through. Locate your favorite team's state and city and mark it by attaching a string to a pin and placing the pin on your favorite team's location.
4. Refer to a copy of the team's schedule for the current NFL season (Team Website). Using the pins and string, locate and mark your team's away games. How many away games do they play?
5. Determine and keep track of the direction your team traveled to play their away games.
6. Using an online map, determine how many miles the team traveled to each of their away games. How many total miles did the team travel throughout the season?
7. Determine if your favorite team is in a different time zone than Canton, OH. What is the time difference? If the starting time of a game is 4:00 p.m. in Canton, OH, what time is the game starting in your favorite team's city?
8. Keep a log of your team's win-loss record for the season plus the number of points they have scored during each game.
9. Did your team win more home or away games?
10. How many miles is it from your favorite team's city to Glendale, AZ, site of Super Bowl LVII?

The Game Is On! Who Will Win, the AFC or the NFC?

Goals/Objectives:

Students will:

- Be able to locate and identify the different teams' locations based on the latitude and longitude of each.

National Standards: National Geography Standards – 1: How to use maps

Methods/Procedures:

- Each group of students will be given a blank map of the United States with the latitude and longitude on the map.
- Students will be given the list of NFL football teams with the address of the training facility for each one.
- Divide the class into 4 groups with 2 of the 4 groups taking the NFC teams representing the NFC Conference and the other 2 groups taking the AFC teams, representing the AFC Conference.
- Divide the NFC teams in half, giving 8 teams to one group and 8 teams to the other group. Divide the AFC teams the same way, giving 8 teams to one group and 8 teams to the other group.
- Using an atlas or maps online, locate the city and state of each of the teams and draw a small football there, or a dot if desired. (absolute location)
- Locate the coordinates, latitude and longitude, of the 8 teams and write them on an answer sheet provided. The conference that gets the coordinates correct for all of their teams wins the contest and therefore the "big game."

Alternative Methods/Procedures (Regions of the United States):

- Discuss the cardinal directions and the secondary directions (midway between them ie., northwest) and locate them on a classroom map or globe.
- Have students put up labels of the correct cardinal directions that apply to the classroom after discussing which direction would be north, south, east, and west.
- Hand out a blank outline map of the United States to each student.
- Go to the website www.50states.com and click on the link "United States Map" to associate the abbreviations with the correct states if needed. Have the students label the states.
- Divide the students as above, and give the list of NFL teams with their address to each group, focusing on the city and state.
- The groups will try to determine the regions of the United States where their teams are located. They should place the name of the team on the city and/or state where the team is located.
- Point out that there are groups representing the NFC teams and groups representing the AFC teams. There will be a contest to see which "conference" can find the correct regions first and write them on the answer sheet given. This will determine which conference wins the game!
(For those who know the teams in the NFC North, South, East and West, it won't matter in this contest!)

The Game Is On! Who Will Win: the AFC or the NFC?

Materials:

- Blank map of the United States (SS 2)
- List of all existing teams by conference, with the address for each (SS 13)
- Access to the internet for a map of United States regions as listed above
- The Game Is On worksheet

Assessment:

- Students will label the states correctly on their maps.
- Students will successfully locate the city or state of the teams in their conference on the map.
- Students will complete the answer sheet with the correct latitude and longitude coordinates for each of their teams' cities.
- Students will correctly indicate the region in which each team in their conference is located.

The Game Is On

Name/Names _____

National Football Conference

Arizona Cardinals _____

Atlanta Falcons _____

Carolina Panthers _____

Chicago Bears _____

Dallas Cowboys _____

Detroit Lions _____

Green Bay Packers _____

Los Angeles Rams _____

Minnesota Vikings _____

New Orleans Saints _____

New York Giants _____

Philadelphia Eagles _____

San Francisco 49ers _____

Seattle Seahawks _____

Tampa Bay Buccaneers _____

Washington Commanders _____

American Football Conference

Baltimore Ravens _____

Buffalo Bills _____

Cincinnati Bengals _____

Cleveland Browns _____

Denver Broncos _____

Houston Texans _____

Indianapolis Colts _____

Jacksonville Jaguars _____

The Movement of the Population to the South and West

Goals/Objectives:

Students will:

- Understand the growth of the southern and western areas of the United States.

National Standards: National Geography Standards – 9: The characteristics, distribution, and migration of human populations on Earth’s surface

Methods/Procedures:

- Students will be given a list of cities that currently host a National Football League team.
- Then students will examine the following website:
<http://www.infoplease.com/ipa/A0922422.html>
- Have students examine the list of cities for 1940:
 - A) Which have NFL Teams today?
 - B) Which cities that have NFL Teams today are missing?
- Go to an atlas and locate the top 20 cities from 1940.
 - A) If you were to classify these cities, are the majority located in the North, East, South, West, etc?
 - B) Of the NFL cities missing are they located in the North, East, South, West, etc?
- Now go back to the website and examine the Top 20 cities of 2012.
 - A) Which have NFL Teams today?
 - B) Which cities that have NFL Teams today are missing?
- What NFL cities are now considered in the Top 20 that were not in 1940:
<http://www.infoplease.com/ipa/A0922422.html>

Other Activities:

- Students will determine (based on population - 2010 & 2020) the Top 4 places that the NFL might put expansion teams.
<http://worldpopulationreview.com/us-cities/>
- Have students examine expansion, but this time ask them to also take into account distance to other teams.
- Have students use the United States Census Bureau website to compare income, etc. of those cities.
- Here is an example of steps to gather data from the Census website:
 - * Census Data:
 1. Go to data.census.gov/cedsci
 2. In the “I’m Looking For” search bar type “Total Population in the United States”
 3. In the top left, click the “Maps” tab

The Movement of the Population to the South and West

**Materials:**

- Access to the Internet
- Access to HOF's web site at www.ProFootballHOF.com
- Access to the InfoPlease: <http://www.infoplease.com/ipa/A0922422.html>
- Access to data.census.gov/cedsci
- Paper and writing tool

Assessment:

- Students will explain possible reasons or factors for a shift in population with enormous growth in the southern and western locations after World War II.
- Students will deliver a formal presentation on a particular location.

The Origins of the Football Stadium

Goals/Objectives:

Students will:

- Study the history of the amphitheater.
- Compare modern football stadium designs to the design of the ancient amphitheaters.

National Standards: World History Across the Eras – Standard 1: Analyze why humans have built cities and how the character, function, and number of cities have changed over time

Methods/Procedures:

- Students will explore the architecture and design of the ancient amphitheater by researching the Greek amphitheaters and the Roman amphitheaters.
- Have the students write down several facts about the design and architecture of these ancient structures.
- Once the students have an idea as to the purpose of the stadium and the design, go to: <http://www.worldofstadiums.com/> and have the students explore all of the stadiums in the state in which they live.
- Have the students select the NFL stadium closest to their home and explore the design of it.
- Compare the stadium of ancient Greece or ancient Rome to the stadium closest to them by comparing size, capacity, entryways, the way the seats are set up, etc.
- Have students make note of the similarities especially.
- Have students design a football stadium of their own, but have them incorporate at least some of the characteristics or elements from ancient Roman or Greek amphitheaters and note what they are.

Materials:

- Access to the internet
- Books with information on Greek and Roman amphitheaters
- Paper, pencil and a notebook to take notes on the design of ancient stadiums
- Drawing paper for the new stadium design

Assessment:

- The design of the new stadium will show the features from the ancient stadiums incorporated into the new design. The students will need to highlight what design or elements of architecture were taken from the ancient design on the back of the drawing.

The Road to Excitement: Destination Canton

Goals/Objectives:

Students will:

- Identify and locate the 50 states, the NFL states and the NFL cities.
- Interpret a map legend (scale of miles, directions).
- Write a descriptive paragraph.
- Calculate expenses and mileage.
- Research historical information about the franchise, city, etc.
- Produce a travel guide.

National Standards: National Geography Standards – 1: How to use maps

Methods/Procedures:

- All students will be expected to complete a map of the USA, locating all states and then all states with NFL teams and the cities in which these teams are located.
- Teacher will provide students with background information about the formation of the NFL.
- Through a lottery, students will be assigned a NFL team to research. They must find pertinent background information about the formation of the franchise, information about the city, etc.
- Students will examine the cost of airfare, hotel rooms, bus rentals, catering costs, etc., to estimate the amount of money their chosen team must spend to attend away games.
- After examining a team's away schedule, students must calculate the total expenses for all away games.
- Students will create an NFL team tri-fold travel brochure.
 - * One panel should include a descriptive paragraph about pertinent background information for that franchise.
 - * One panel should include pertinent tourist-friendly information about the city.
 - * One panel should include information about the team's "away" schedule and the costs incurred.
 - * Students may select graphics and other data to include on the remaining 3 panels.
- Students will present their brochures to the class.

Materials:

- Access to computers
- Access to the internet
- Paper
- Pen/Pencil

Assessment:

- Students will be graded based on teacher created rubric

Tickets, Anyone? The Law of Supply and Demand in the NFL

Goals/Objectives:

Students will:

- Be able to understand how prices are determined based on the Law of Supply and Demand.
- Learn the basic terms of economics and relate them to football teams and football games.

National Standards: National Content Standards in Economics: Standard 7 – Markets and Prices;

Standard 8 – Role of Prices

Methods/Procedures:

- The teacher introduces the terms “goods” and “services” or the things that people want, and defines them.
 - * Goods- things that can be seen and touched that people buy.
 - * Services- things people do for others.
- The teacher explains the concept of scarcity:
 - * There are only a certain amount of goods and services that can be produced. People have unlimited wants, but they have only so much money to buy what they want.
- The teacher explains that the students and their families are consumers, or people who buy goods and services to satisfy their wants.
- Create a scenario for the NFL team closest to your school. The team has been winning all of its games. It’s the best season it has ever had. Most of the seats have been pre-sold to season ticket holders. Everyone wants to go the games, but there are only 20 seats that aren’t pre-sold for the next game. People are willing to pay a great deal of money for a seat to see their team win and probably go to the Super Bowl. The demand for the last available seats at the game is high. The supply of available seats is low, only 20! So the cost for the seats can be high because people are willing to pay more for them. When the demand is high and the supply is low, price goes up.
- Create a scenario for a team that has not been winning and has mostly empty seats at the games. The stadium has a large number of seats available because people probably don’t want to spend much money on watching the team lose. In this case, the demand is low, but the supply of seats is high. The price for the seats goes down.
- Explain that this is the Law of Supply and Demand.
- Have students complete the Supply and Demand Worksheet.
- Place students in groups to create two scenarios at a football game, one where the prices will go up and one where the prices will go down. Have them write it down and share with the class.

Materials:

- Supply and Demand Worksheet
- Paper
- Pen/Pencil
- Chalkboard or dry erase board
- Pictures of typical sights at football games to help students create their scenarios

Assessment:

- Have students give examples of goods and services at a NFL game.
- Using a scenario created by a group in the lesson above where the demand is high and the supply low, ask what would happen to the price.
- Using an example created by a group in the lesson above where the supply is high and the demand low, ask what would happen to the price.

Supply and Demand in the NFL

Directions: Identify which of these are examples of goods and which are examples of services. Then add 3 more examples of each that might be seen at a football game.

1. Team pennant _____
2. Team doctor _____
3. Hotdogs and hamburgers _____
4. The cashier at the team gift shop _____
5. Ushers to help you find your seats _____
6. Footballs in the team gift shop _____

Goods

1. _____
2. _____
3. _____

Services

1. _____
2. _____
3. _____

Scarcity- _____

Scenario:

The weather suddenly changes at a game; the temperature has dropped by 30 degrees. There are only so many sweatshirts or jackets left in the store, so the demand is high, but the supply is low. What will happen to the price and why? _____

Miscellaneous Activities

Teachers: The following are suggested classroom social studies activities for you and your students to enjoy. Feel free to adapt these ideas to suit your classroom.

BATTLE OF OHIO: Draw a map of Ohio and label the two Ohio NFL teams in their appropriate cities. Find out more about these two cities. Have there been any other professional football teams in Ohio through the years? Label these cities as well.

DISTANCE STUDIES: Each NFL team is part of a specific conference. On a United States map use push pins and string to label the different conferences and the distance traveled in order to get to the teams in their own conferences.

MAP READING: Can your students find their way to their favorite team's city? Using maps, Internet, and any other resources, determine what major highways and roads will be used for travel during a trip to the game.

HOMETOWN FUN: Using a United States map and an NFL team roster, locate and label the cities that each player is originally from. Are there any players from outside of the United States?

**The Hall of Fame welcomes any suggestions for classroom activities.
Please share your thoughts and ideas by contacting the
Educational Programs Staff at (330) 456-8207 or e-mail at
Education@ProFootballHOF.com.**

NFL Cities Word Search

Can you find the cities of the thirty-two teams in the National Football League? The cities run in all directions: forward, backward, up, down and diagonally. Good Luck!
